Healthy belting is also produced with a kind of trumpet-like intensity that makes the sound seem to be very powerful without causing vocal fatigue or stress. It takes a good amount of breath support generated by a strong, deliberate use of the abdominal muscles while singing, but it does not use air in the same way that a good classical sound does.

Voice Students: What is Healthy Belting?

A lifted sternum with a head aligned over the body (not in front of) is imperative to experience belting without strain. Stand with your feet hip distance apart. Soften your knees so they don't
