Description. Description. Evolutionary Behavioral Sciences (EBS) publishes manuscripts that advance the study of human behavior from an evolutionary perspective, with an emphasis on work that integrates evolutionary theory with other approaches and perspectives from across the behavioral sciences, including the range of subdisciplines within psychology as well as the social sciences (e.g., sociology, political science, criminology) and humanities (e.g., history, literature studies).

Evolutionary Behavioral Sciences

Journal Overview The Journal of Evolutionary Biology is a bimonthly, peer-reviewed, international journal. We prioritise papers that address the evolutionary process, from a broad perspective. We cover both micro- and macro-evolution of all types of organisms.

Journal of Evolutionary Biology - Wiley Online Library

Evolutionary clinical psychology provides a non-arbitrary definition of psychological disorder--when an evolved mechanism fails to function as it was designed to function. It also sheds light on common afflictions such as depression, anxiety disorders, eating disorders, and sexual disorders.
