King Air C90
I wrote about maintenance inspections back in 2010, but I find myself discussing it every day. The 200-hour Phase Inspection Program. High-use King Airs must have a phase inspection every 200 hours. A King Air that flies around 33 hours/month or more is going through a phase inspection every 200 hours.

I was asked to write an article about preparing a King Air for winter weather. Initially, I brushed the idea aside because everything I would suggest is covered by the Phase Inspections in the Maintenance Manual. But when I had my shop, the majority of my customers flew less than 200 hours a year and...

The most-common King Air maintenance item operators will encounter are Phase inspections. King Airs have four Phase inspections, a Phase 1, Phase 2, Phase 3, and Phase 4. King Air Phase inspections typically happen every 200 hours and an entire King Air series of Phase 1-4 inspections are required to be completed every 24 months.

King Air Maintenance - Elliott Aviation
The decision to remove Chapter 4 from the Maintenance Manual (MM) and issue a stand-alone Airworthiness Limitations Manual (ALM) was made for the following reasons: We were experiencing delays in being able to issue a MM revision because any Chapter 4 content of a revision had to be approved and signed by the FAA.
