Living On The Volcano The

Living on the Volcano is basically a series of profiles on coaching in the English professional realm. They run the gamut from the Premier League all the way down, but are mainly in the middling ranks. Many of the coaches have worked across multiple levels, either because of the performance of their teams or through moving clubs.

Living near an active volcano can be beneficial as well as dangerous. The soil is fertile, and a lot of volcanic products can be used in everyday life. Sulphur, for example, can be used as an ingredient in matches, or in medicine, while the finer volcanic deposits, such as the gravels and sands found in rivers, can be used in building materials. In addition, the thermal energy from some ...
