Enter the username of the database user with which you want to start Discoverer Administrator in the Usernamefield Enter the password of the database user with which you want to start Discoverer in the Passwordfield. Specify the database to connect to in the Connectfield, using the following guidelines:

Getting Started with Discoverer Administrator - Oracle

Oracle BI Discoverer is a business intelligence tool for analyzing data and is a key component of Oracle Fusion Middleware. Discoverer provides an integrated business intelligence solution that comprises intuitive ad-hoc query, reporting, analysis, and Web-publishing functionality.

Introducing Oracle BI Discoverer

An Oracle Applications mode EUL is a Discoverer End User Layer based on an Oracle Applications schema (containing the Oracle Applications FND (Foundation) tables and views). Oracle Applications EULs employ Oracle Applications user names and responsibilities whereas standard EULs use database users and roles.

Using Discoverer with Oracle Applications

When an end user changes a preference in Discoverer Plus or Discoverer Viewer, Discoverer writes the change (for the current user) to the.reg_key.dc file. For more information about the Discoverer Plus and Discoverer Viewer registry settings, see the Oracle Fusion Middleware Configuration Guide for Oracle Business Intelligence Discoverer.

Discoverer Registry Settings - docs.oracle.com

Oracle's Discoverer application was designed as a smart ad hoc query and analysis reporting tool for businesses. In January of 2009, Oracle released a public statement encouraging its users to migrate from Discoverer.

The Ultimate Guide to Replacing Oracle Discoverer

An Oracle BI Discoverer connection consists of the following database login details: Database username to identify the Discoverer end user. Database password to authenticate the Discoverer end user. Name of the database containing the information that the Discoverer end user wants to analyze (optional) An Oracle Applications responsibility to specify the Discoverer end user's responsibility when using Discoverer with Oracle Applications (relational data source only) The End User Layer to be used
