Existing test keys from STAAR, TAGor TEKSscore can be copied for a new test: > Create a header and select the content > Select the Key tab > Select Copy to copy an existing key > STAAR - Choose release year and subject. From the list, check the box next to the grade level and language. Number of items on each test is displayed.

TEKScore - DMAC Solutions

Scantron sheets must be either coded by a test administrator or manually bubbled in by a student before use. A test administrator is any staff member with the Data Administrator, Campus Administrator, or Campus Local Assessment Printer role. Therefore all teacher tests will require the student to manually bubble in their information.

TEKScore Overview TEKScore is a web-based tool for scoring and analyzing local TEKS-based assessments.

TEKScore - Software for Texas Educators - DMAC Solutions

The STAAR mathematics assessments use a type of open-ended question known as a griddable item. The purpose of griddable items is to provide students opportunities to derive answers independently without being influenced by answer choices provided with the questions. STAAR mathematics assessments include 3 to 5 griddable questions.

Math / STAAR Math Grids

The test is designed to evaluate a student's skills in math, reading, writing, and science. While ACT questions are considered easier than SAT questions, the time allotted to each section of the exam is significantly shorter.
