As of this writing, Gutenberg has over 57,000 free ebooks on offer. They are available for download in EPUB and MOBI formats (some are only available in one of the two), and they can be read online in HTML format.

## **Tractor Third Function Hydraulic Valves**

Tractor Third Function Hydraulic Valves are generally classified in two groups: Diverter Valves and Dedicated Valves. A Tractor 3rd Function Diverter Valve is installed in series with an existing hydraulic circuit on your tractor (typically your bucket tilt/curl function) and, when activated, temporarily diverts flow to an additional function, such as operation of a grapple or angle blade. The valve operates by way of an electric solenoid that actuates the diverter.

## **third function valve important update! - YouTube**

The true 3rd function valve is an independent valve that is controlled by a switch and provides full flow to the attachment. It usually has no relief. Some people like to associate the 3rd function with the grapple/loader, but it is just a valve that can be added anywhere before the last valve which is the 3pt.
